COACH EXPECTATIONS

QUOTE

Coach Swearingen is counting on what he has seen work before. Having his players get bigger, faster, and stronger, while learning how to win. The senior class has been providing leadership, while the exciting younger core has been providing a different level of energy, especially in the weight room. He expects his team's football IQ to go up, and hopefully the wins will follow suit.

BREAKDOWN

FINAL ANALYSIS

Swearingen returns for year two at the helm for the Bulldogs. While still in the rebuilding process, this team is looking to improve upon last season. League realignment bodes well for Centennial, as they should be able to compete week in and week out. QB **Augustine Cecinho** and RB **Samuel Lucero** lead the way, as the Bulldogs work to get the coveted **Bell** back from their crosstown rivals.
